

Pro Series

Interactive Flat Panel for Enterprise

Our complete enterprise solution is easy to use, simple to install, will work with your current system set up and is designed for over 50,000 hours of use. With low maintenance and no ongoing subscriptions, Clevertouch provides the only complete all in one solution for Enterprise.

Display Technology for Collaboration and Conferencing
InAVation Awards 2018 – Winner

Manufacturer of the Year
AV Awards 2015 – Winner

Collaboration Product of the Year
Install Awards 2018 – Finalist

The award winning all-in-one solution

Flexible Solution

Our Pro Series solution is designed to be flexible and agnostic, so you can use your existing VC solutions and software. Our open platform approach gives you access to cloud-based applications such as Skype for Business, Slack, Zoom, and Google Hangouts.

Networking and Security

Our touchscreens are designed to integrate with your current system set up. With remote management tools, increased security and network options, and the most comprehensive warranty on the market, Clevertouch offers long-term savings and increased return on investment.

Dynamic Messaging

With Clever Message send dynamic messages to your Clevertouch screens. Your IT department or office can create messages for 24/7 use with live alerts and announcements.

Natural, Fluid Writing

Our Super Glide Surface technology provides a natural and fluid writing experience with no lag, reminiscent of a pen and whiteboard. Erase with your palm. Pinch and pull to zoom. Switch between finger-touch, pen, and dual-pen instantly without needing to alter settings.

Blade PC

With an optional slot-in Windows 10 Pro Intel® Core™ i5/i7 PC, you can load your existing apps and software from your network, enabling you to collaborate securely across the globe, and access the same features as your colleagues, wherever they are based.

Open Platform Video Conferencing Solutions

Connecting people with technology

#clevertouch

Clever Message Application

For Cloud based company branding and messaging

Optional Blade PC

Choose from an i5 or i7 Intel Core PC with Windows 10 Pro with 4/8 GB RAM and 128/256 GB SSD, and integrated Intel® HD Graphics and Intel H110 Express Chipset.

Audio

Built-in high-end speakers

High end integrated tablet mode

Compatible with **Windows, Mac, iOS, Android** and **Chrome.**

Video conferencing

Access apps such as Zoom, Skype for Business, Slack and Stage and connect any type of camera.

Fluid and natural touch experience

With active stylus.

Superglide Surface

4mm toughened glass

Personalized account profile

Access your settings, files and Cloud accounts from your NFC key fob.

Clevertouch Features

Fully customisable

Local team with expert knowledge

Comprehensive warranty

20-point touch

Energy efficient

Compatible with existing hardware and software

4K resolution display

Personalized account profile

Remote management

OTA (Over the air) updates

Integrated speakers

LUX user interface

No shadow

Anti-glare glass

HDMI, VGA, RS232 and USB connectivity

Optimal performance

Super glide surface

Clever Message

24/7 digital signage

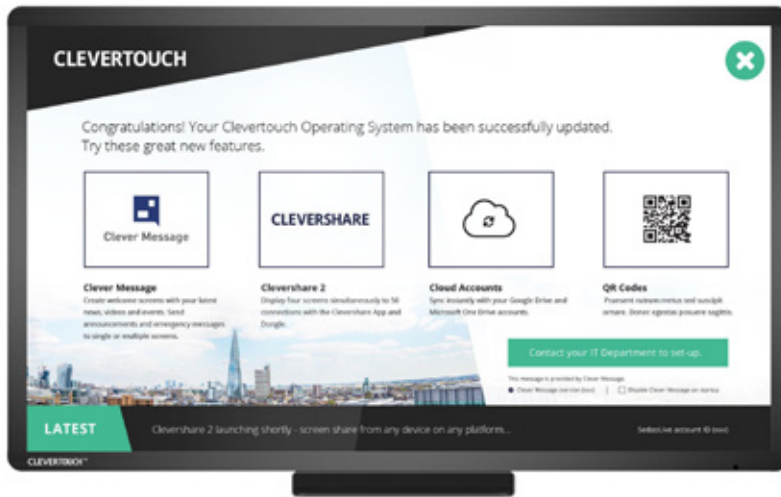

Turn your Clevertouch into an interactive digital signage kiosk.

Branded power-up screen

Get your organization's daily news when you power-up each day.

Live video streaming

Broadcast live or pre-recorded audio and video to your screens.

Instant messaging

Send instant or timed messages to any of your Clevertouch screens remotely.

Alerts

Send important announcements at the touch of a button.

Group your screens

Send messages to groups of Clevertouch displays simultaneously.

Clever Message Features

Add your logo

Customize with your colors

Add images and slideshows

RSS

Create RSS feeds

Live video messages

Add video and movies

Insert documents (pdf, word)

Add web pages

Touch Compatible

Add clocks with date and time

Add sound

Add text boxes

Create animations

Schedule timed messages

Choose from hundreds of themed templates

Assign zones to different staff or departments

Create groups of screens

Works over multiple locations

Pro Series Range

	Capacitive Touch	E-CAP	High Precision
	<p>Capacitive is our multi award winning premium panel for Enterprise. This true-bonded touchscreen is the most sleek, stylish 4K panel on the market.</p> <p>Designed with the latest technology available, capacitive gives the most natural, responsive and accurate touch experience. A true-bonded capacitive screen delivering an end-user experience unmatched by any other display.</p>	<p>The new E-CAP is a blend of two technologies, combining infrared technology, excellent for gesture control, and EMR (Electro Magnetic Resonance), best for accuracy and responsiveness. The combination of IR technology adds the benefit of gesture control using your hand or the choice of finger touch or active stylus depending on your preferred experience.</p>	<p>This high precision infra-red technology. An enhancement on standard technology where our touch frames can now recognize the varied stylus to give the ability to assign different color to different stylus's or to you stylus and finger. The ultra-precise writing experience and great gesture control is guaranteed.</p>

Remote Management (MDM)

Control multiple Clevertouch devices, wherever they are

The Clevertouch MDM system enables help desks, IT administrators and project leaders to centrally manage and support hundreds of Clevertouch devices, wherever they are. Reaching well beyond the local network boundaries, our Centralized Management System delivers a bird's-eye view of an entire device fleet, enabling administrators to give the best support possible with optimal conditions for decision-making.

Extend your support umbrella, control capabilities and manage Clevertouch screens wherever they are located and operating, both inside and beyond the organisation's network. Manage mission critical and complex IT infrastructures and simplify demanding operation and maintenance work on multiple devices.

Control hundreds of Clevertouch devices remotely

- Create groups to make sure each screen has the most suitable apps and files for where it is used, such as C-Suite, Design Studios, Maths Class, Reception Class, corporate boardroom, huddle room, etc.
- Take control of the Clevertouch screen from your desktop
- Install APKs, policies and files
- Push messages directly to the Clevertouch display, ideal for security announcements
- Anti-theft module – Lock, unlock and reset displays
- Restart or shutdown multiple screen/s remotely by a single click
- Wipe the screen
- Run diagnostics

Optionally, Clevertouch MDM can serve as the basis for managing other devices in the organisation (Android, Windows, iOS and Chrome OS) from a single console, such as desktops, laptops, tablets and smartphones.

Instant Updates (OTA)

Updates delivered instantly

The new Over-the-Air technology means that new features, bug fixes, software and hardware updates can be seamlessly delivered to every Clevertouch screen.

With just the click of a button the Clevertouch screen will search for the latest firmware update and install it, giving you instant access to the latest apps and features.

Patch fixes no longer have to be downloaded onto a USB and uploaded manually, giving IT Managers more time and less hassle.

Clevershare Wireless Device

Wirelessly transmits Video, Audio and Touch

With the Clevershare wireless device you can control your Clevertouch from anywhere in the room, without the need for any wires. Simply plug the Clevershare into your laptop's USB port and you can show and edit your laptop's content on your Clevertouch screen. You can instantly display your desktop and control from your computer or Clevertouch – your pen or finger becomes your mouse.

Product Features

- Simple operation, one button projection
- Up to eight computers can be connected at the same time
- The USB data interface applies to all computers
- Windows and Mac OS compatible
- Low power consumption, no additional power supply
- Exclusive to Plus Series and Pro Series

Security Features

- Clevershare uses a “private” SSID that is only accessible between the receiver (Clevertouch IFP) and transmitter (dongle), this connection is setup when the dongle is paired with the Clevertouch
- The SSID uses the WPA2 encryption (based on 128bit AES) on the transport layer, but no data encryption on the application layer
- Since the video transfer is not on a public network, no other clients are allowed to join in
- The video transfer should be regarded as secure

Clevercable

Clevercable is the hardwired version of our Clevershare technology and enables sharing on Windows & Mac to your Clevertouch via the USB port. Clevercable comes as standard with every purchase of a Pro Series screen.

Product Features

- Quick and hassle free set up
- Provides reverse touch control
- Includes one-button click for instant sharing
- 5 metre cable
- Secure
