# AccurioPrint 950i/850i 10 GOOD REASONS TO BUY RETHINK EFFICIENCY

## AccurioPrint 950i/850i

### 1 A great user experience

Modern card-type user interface, widgets and various apps with integrated guidance make operating AccurioPrint 950i/850i just like your smartphone.

### 2 Full security, so you're in control

Built-in AccurioPro services and optional Bitdefender® antivirus engine, so your company data is protected from security leaks and malware infection.

Bitdefender

### 3 Sleek and simple design

With a floating panel, curved edges and ambient lighting, the device is agile to handle and easy to operate.

### 4 Always up and running

Remote services and long-life parts that are built to last will maximise the uptime of your device.

### 5 A more connected office

The Konica Minolta MarketPlace and Cloud Services are both accessible from the user interface home screen.

### 6 Performant Printengine

Delivers professional, finished documents with excellent quality for office workgroup environments and small CRDs with high speed.

### 7 Accessible to all

With voice operation, a tiltable screen and UI remote access, anyone can use the AccurioPrint.

### 8 Fully customisable home screen

Make it your own AccurioPrint 950i/850i with easy panel customization, UI builder and bizhub Personalize.

### 9 Better for the environment

Less energy consumption, lower noise levels and short warm-up time.

### 10 Make Ready

AccurioPro Flux Essential offers all you need for efficient prepress processes. The automation of recurring tasks and centralized control of all production machines will multiply the productivity of your print room.

- Reduced noise and energy consumption
- Konica Minolta quality and reliability

### CUTTING EDGE TECHNOLOGY

- Smooth and fast QuadCore processor
- Built in Bitdefender® antivirus (optional)
- Automatic paper weight and type detection for A3 MFPs (standard or optional)
- Double feed detection sensor for DSDF (standard or optional)
- Mobile print/scan support

### QUESTIONS FOR SUCCESS

- Is it critical that information stays inside your company?
- What would be the impact of a security leak?
- Are you using different media for your prints and copies? Would you like the paper weight to be automatically detected?
- What do users most frequently use the MFP for? How much time do they usually spend per scan/copy/fax?
- Where are your MFPs placed? Are they close to where people work?

\*available as an option for the AccurioPrint 950i/850i
