02 Design, Build Deploy.

SKA DESIGNER

Your tool to Design, Build and Deploy your interactive content remotely

SKA PLAYER

The visible content you've deployed on your interactive devices

- > Cloud-based solution
- > Layout made from tiles
- > Planned deployments
- > Screen groups management
- > Users & permissions management
- > Detailed Analytics

03 SKA Designer

SKA Designer is our unified management tool. Create & deploy your content lightning fast thanks to our collection of customizable Modules. It's easy, No-code and versatile. Let's amaze your audience!

MOST POPULAR MODULES

AGENDA

List of all your upcoming events, meetings, to remember. Description of each event, QR Code to register etc.

DIRECTORY

A listing of all the members of your company/organization with a portrait, an introduction text and contact info.

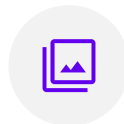

SOCIAL WIDGET

Engage your audience straight from your start screen with your latest Twitter, Facebook and LinkedIn social posts.

PDF READER

A true must have. Offer single or multipage documents to read and download. Fullscreen display.

MEDIA GALLERY

Showcase your media content the best way mixing photo & videos. Ideal for Events photo reports, artworks, ...

MAP · POI

A Map displaying the surrounding points of interest such as public transports, parkings and your own map pins.

ITINERARY

Enter your destination and departure time and get an instant forecast of your route. Highway cameras in real time.

NEWS

Display the latests news from the major medias to bring real-time information to your audience.

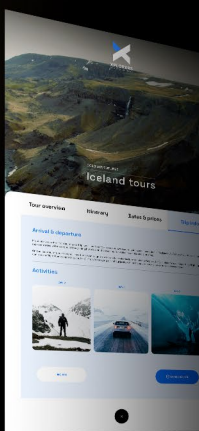

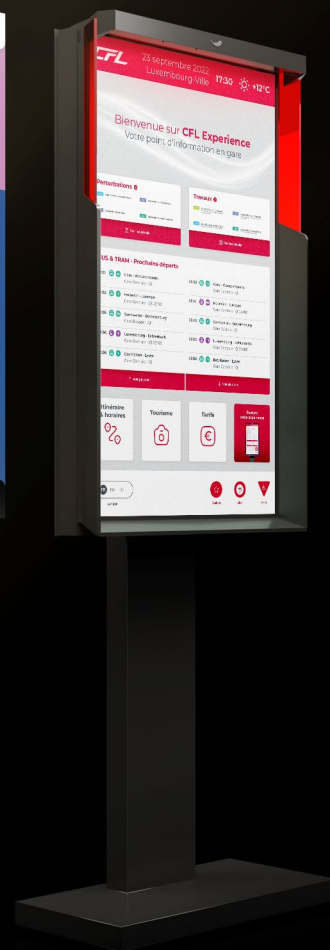

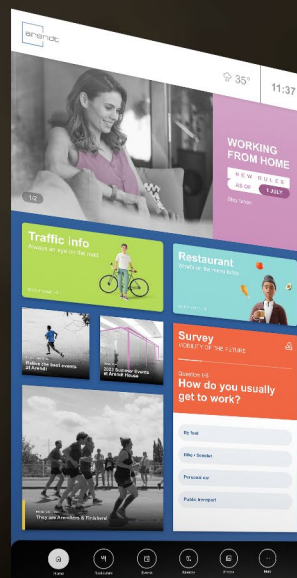

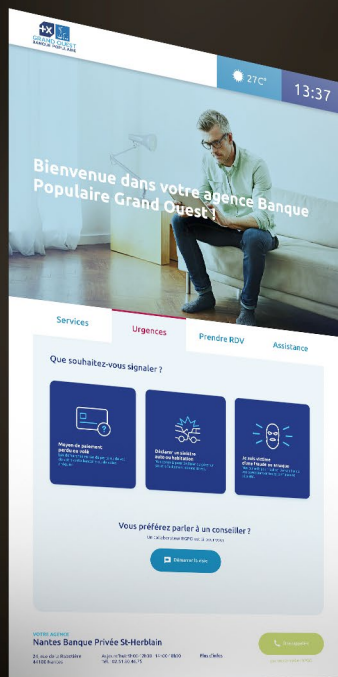

SURVEY

Gather feedback from your audience. Easily build your survey, get access to the stats and export the data to reuse.

04 SKA Player

SKA Player is the visible interface your audience interacts with. Your App is fully customizable to match your branding and your communication strategy. Every interaction with the Player is recorded to bring your detailed analytics about the usage of your App.

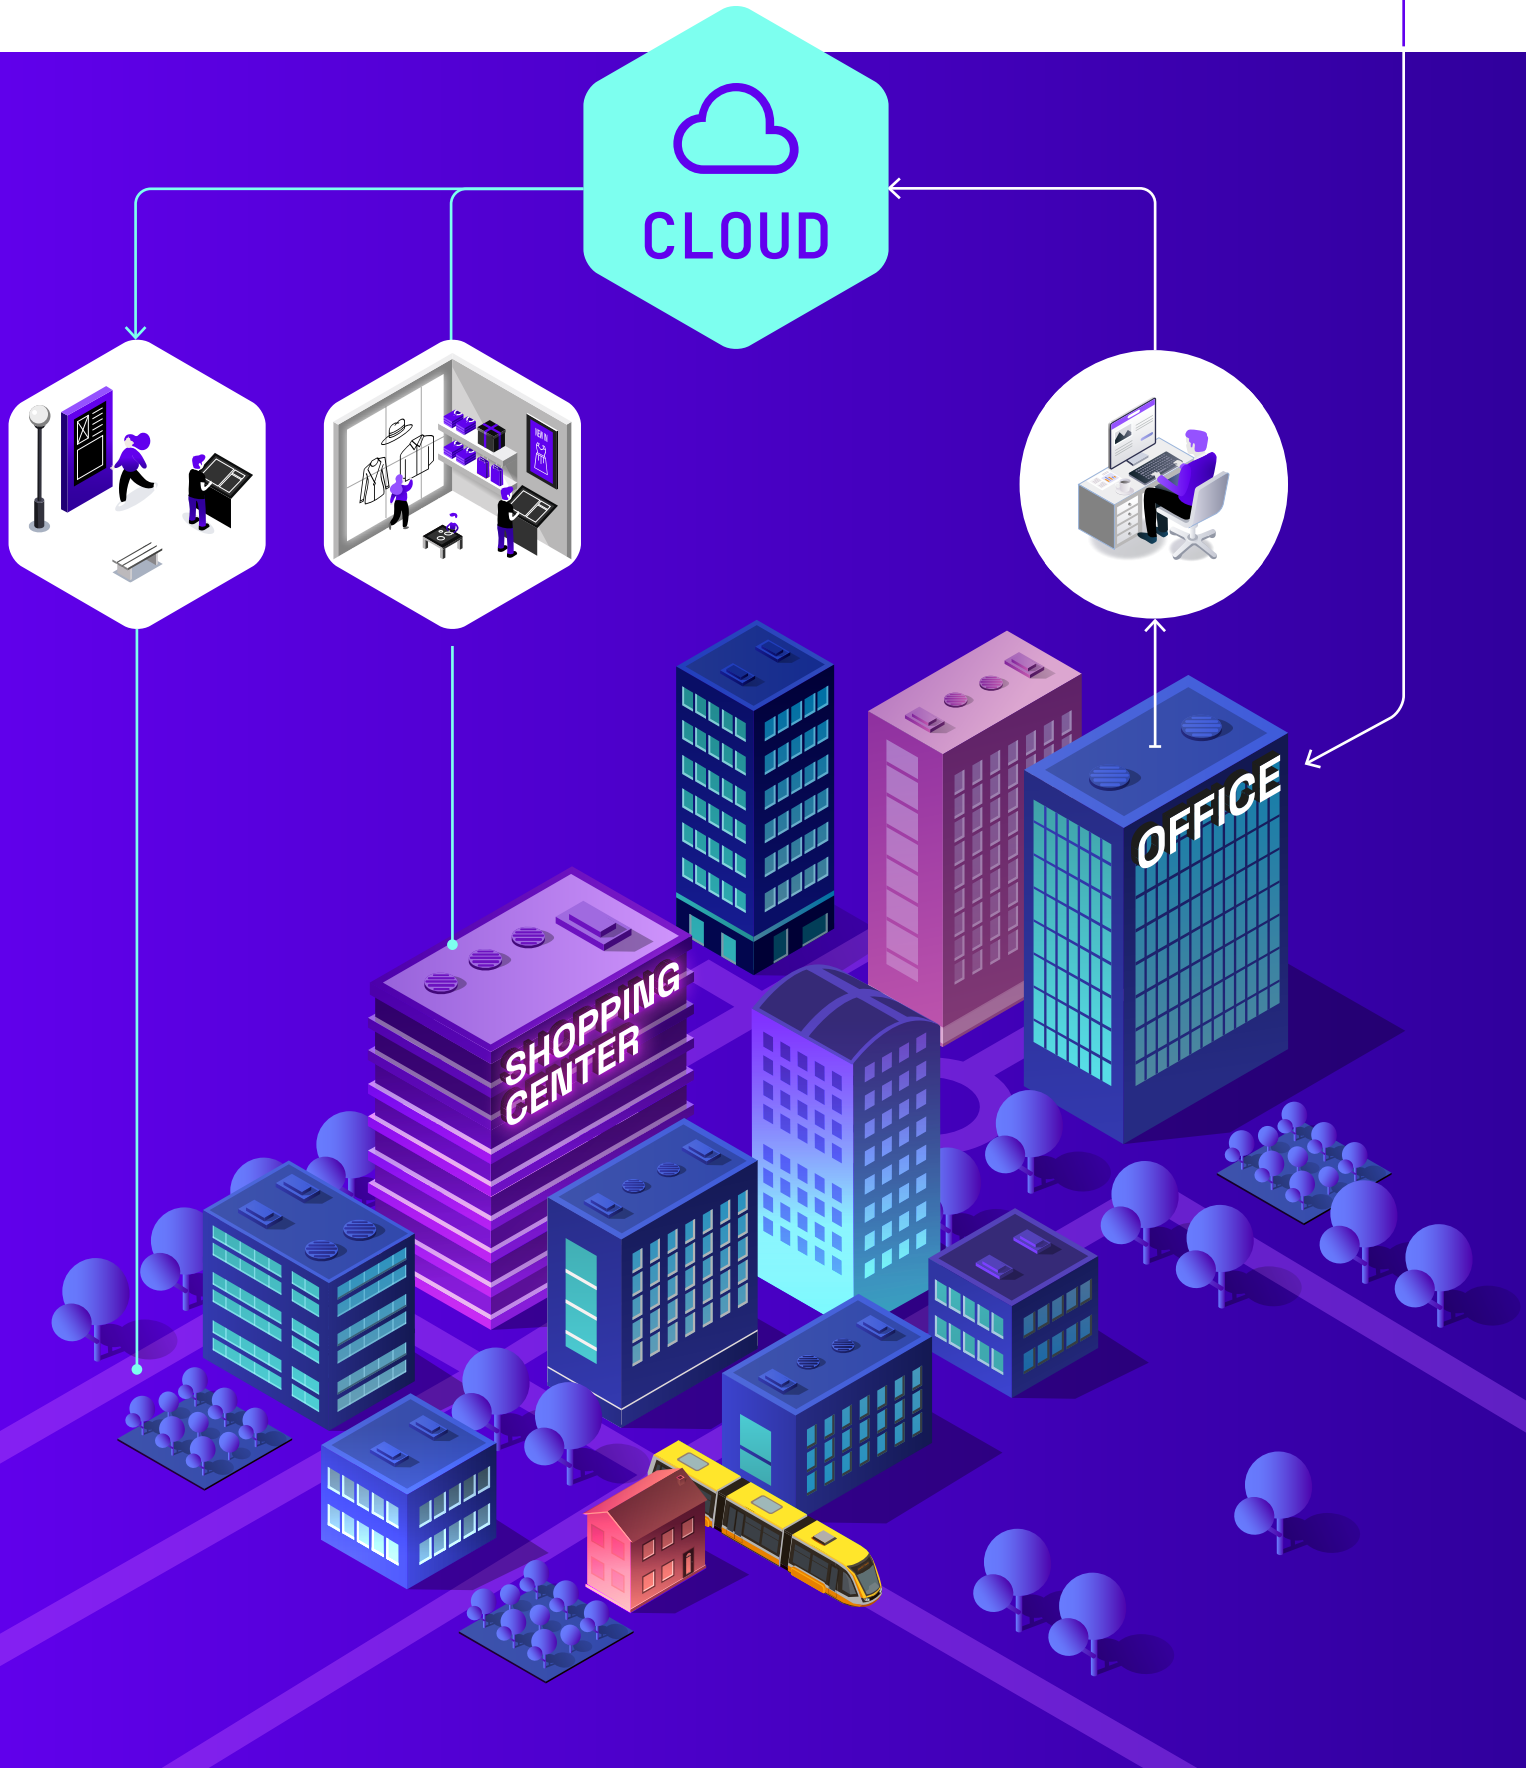

ONE PLATFORM, INFINITE POSSIBILITIES OF DESIGNS

05 How it works

SKA brings all the simplicity of a Cloud architecture. From the office but also from your home office: Design, Build and Deploy your content anytime and everywhere your interactive devices are. In your building or on the other side of the country.
